

Kia Yang

Ceramist

My role at Renstrom/Crocus

Kia layers and builds different porcelains over metal and porcelain substructures. She works carefully on each restoration so that the desired strength and esthetics are achieved. With each case Kia verifies that all aspects of the crown including shade, contacts, fit, and occlusion all meet the doctor's specifications.

Highlights of my Career

- Received two year diploma for dental technology
- Attends the annual Minnesota Association of Dental Laboratory meeting
- Frequently attends continuing dental education courses

My Mission Statement

I feel that at Renstrom/Crocus we have very skilled technicians that are committed to producing very high quality products. We work hard as a team to overcome any challenges that we are presented with. Our goal is to fabricate restorations that will fulfill the patient's desires and give them a beautiful smile.
