

### **Kristina Reinert**

Ceramist

#### **My role at Renstrom/Crocus**

Kristina has always enjoyed working in the porcelain department. She designs and completes life-like restorations that will put smiles on many faces. When in the porcelain area she works with many different materials that are used to bond with understructures such as metal or zirconia. Kristina works hard to customize each case relative to the doctor's specifications.

#### **Advanced Dental Lab Training**

- Participant/Exhibitor at the Chicago, Illinois Dental meeting
- Member of the Minnesota Dental Lab Association
- While at Renstrom for many years, gained knowledge and excelled in my career by learning many new techniques from Rick and Randy Renstrom

#### **My Renstrom/Crocus Mission**

My goal each day is to design superior restorations so that every doctor is happy with the work that we do for them at Renstrom. By working as a team we all learn from each other and are able to provide nothing less than the best.
