

Manny Mayorga
Caster/Metal Finisher

My role at Renstrom

Manny is responsible for tracking all of the gold and other metal products that are used in the lab so that there is always a sufficient amount of materials available. In addition to that he also does the casting and metal finishing of the crowns which consists of using noble and high noble metals.

Advanced dental lab training

- Used my skills and expertise to assist with the development of a previous dental laboratory
- In addition to working as a caster/metal finisher , I have years of experience working with porcelain as well

Personal mission Statement

I have always strived for excellence believing that doing the best work possible will keep me in a job and it has for 24 years. Working in the laboratory for many years has allowed me to see the changes in technology and advancements in materials, including the all ceramic crowns.
