Tips for Taking Better Impressions

Thursday June 26th, 2008
Vadnais Heights, MN
Co-Sponsor: GC America

Program Outline

- ◆ Advancements in material technology
- ◆ Understanding material types
- ◆ Tooth preparation
- ◆ Taking impressions
- ◆ Tray selection
- ◆ Troubleshooting- common problems and improving your VPS impressions

Program Overview

This evening clinic will provide an overview of the latest advancements in impression materials and products for taking impressions. We will also have some hands-on opportunities and interactive demonstrations. This will be an excellent opportunity to field questions and get some tips and advice to troubleshoot any clinical challenges with impressioning.

A good impression is crucial in all crown and bridge cases. It provides the critical link between the dental office and the laboratory. This program will give some good insights on how to make taking an impression easier, more accurate, and provide your laboratory an excellent working model for your cases.

We strongly encourage everyone from the dental office to attend!
